NOTICE TO RESIDENTS
2021 COMPREHENSIVE STREET AND SEWER REPAIR PROGRAM
CHARLEVOIX AVENUE RESURFACING – LORAIN TO NEFF
TUESDAY, JULY 13, 2021

Through a selective bidding process, the City of Grosse Pointe has awarded Pro-Line Asphalt Paving of Washington, Michigan the contract to resurface Charlevoix Avenue from Loraine Avenue to Neff Road funded by the City’s Road Improvement millage. Weather dependent, Pro-Line Asphalt Paving anticipates starting work on Monday, July 19, 2021 and anticipates completion of the project to take approximately 3-4 weeks. This project will include the recapping of existing curbs currently in poor condition, removal and replacement of driveway approaches, milling off the existing asphalt surface, joint and base repairs to the existing roadway base and the placement of a new asphalt wearing surface. During the construction of this project, you should expect the following:

**Construction Schedule**
Pro-Line Asphalt Paving anticipates mobilizing and starting this project on Monday, July 19, 2021. Weather dependent, the following is the proposed schedule for this project:

- **Removal of Drive Approaches/Sidewalk**  
  Week of July 19
- **Cold Milling/Removal of Asphalt**  
  Week of July 26
- **Joint and Base Repairs**  
  Week of July 26
- **Drive Approach/Sidewalk/Curb Replacement**  
  Week of July 26
- **Asphalt Placement**  
  Week of August 2
- **Vegetative Restoration**  
  Week of August 9

**Traffic Control and Parking**
Charlevoix Avenue will remain open to local traffic only from Loraine to Neff. All residents with a driveway approach off of Charlevoix Avenue will lose access to their driveways on Monday, July 19 to allow for the removal and replacement of driveway approaches. Residents who lose access to their driveway approaches will be allowed to park their vehicles on Charlevoix Avenue or in front of their homes on the adjacent side streets. Once the concrete has been placed for the new driveway approach,
approximately 7 days will be required to allow for the concrete to cure prior to re-opening to traffic. There will be a period of 1 day for the removal of asphalt pavement and 1 day for the asphalt paving when vehicles will not be allowed to park on Charlevoix Avenue. You will be notified by a separate notice when this work will take place.

**Irrigation Systems**
If you are within the construction zone and have a lawn irrigation system, it is recommended you mark or flag the location of any sprinkler heads located between the street and the sidewalk to prevent unnecessary damage to your system. If irrigation systems are accidentally damaged, the Contractor will be required to replace as part of the restoration phase of the project.

In addition, when the placement of the new asphalt surface is scheduled to take place, we ask that you turn off automatic lawn irrigation systems the evening prior to asphalt resurfacing work and to refrain from cleaning driveways and washing cars. You will be notified when asphalt resurfacing work will commence.

**Garbage Pick-Up/Mail and Parcel Delivery**
Garbage pickup, mail delivery and parcel delivery will not be interrupted at any time during this project. Please continue to place garbage at the curb as normal and the City will continue to pick up on your normal day for pickup.

**Weekly Construction Updates**
The City of Grosse Pointe will provide weekly updates about the status of the project and will be distributed to property owners every Friday for the entire duration of the project and will also be posted on the City’s website under the Public Services Department Capital Projects tab. If you would like to receive these notices by e-mail, you can request to be added to the distribution list by e-mailing Chris Hardenbrook at chardenbrook@grossepointecity.org.

We apologize for any inconvenience that this work may cause, but trust that you will understand the benefit of this project once it is completed. For questions or concerns during the duration of the project, please contact Mr. Ryan Kern, Project Manager with the City’s engineering consultant, Anderson, Eckstein and Westrick, Inc. (AEW) at 586-854-5044, or by e-mail at rkern@aewinc.com. AEW will also have a construction observer on site for the entire duration of the project.
